WANTS HELP SAYS TRUCK SAYS TRUCK

Vice President Donaldson of G.T. P. Admits Station Facilities Are Inadequate

TELLS OF IMPROVED SERVICE ARRANGED

Force of 7,000 Laborers Are Now Engaged in Western Construction

That the Grand Trunk Pacific are fully aware that the present terminal facilities of the company in this city are not what they should be, and are not worthy of the city, was the statement of Morley Donaldson, the vice-president of the company, who was seen, on his way through this city last evening by a Bulletin representative, Mr. Morley Donaldson stated, however, that the company is not at present in a position to go ahead with the erection of the new terminal building, as announced some time ago, the reason for this being that the negotiations with the city have reached the stage at which the company and the city could not agree on the matter of closing McHugh avenue and one or two other streets.

Want City's Help.
"We feel that we must have some help in the matter from the city," said Mr. Morley Donaldson, and when the city is prepared to give it, as we will be ready to go ahead. The city in the east end of the city has the cost of new depots which they realize are of great advantage to the city and we think it would be in the interest of your city if Edmonton did something too."

Mr. Donaldson added that the company was joining with the Canadian Northern to lay down new tracks on McHugh avenue and the work would be proceeded with during the summer. Loading accommodations for 170 cars would be provided. Also in addition to the two bays at Hodge and Edmonton, the company was planning to erect hotels at Hodge and Hodge in the National Park, and also at Prince Rupert on the coast. These hotels would be proceeded with as soon as possible.

Additional Service.
An additional service will be put on in Edmonton next month if the new equipment which has been ordered arrives in time. The train will run from the Great Lakes to Edmonton and will include a night service from the city.

The company hopes to get assistance from the federal government to build a line from the city to connect with the Toledo-Calgary line, thus providing an alternative route to Edmonton and Calgary, was also announced by Mr. Donaldson. Work on the connecting line from the city to the Toledo-Calgary line, which the company expects to have in operation this fall and the boundary line running north from Regina, and connecting with the Great Northern at the city, will be in operation by the end of September.

Work on Main Line.
Regarding the progress on the main line, Mr. Donaldson said that steel would reach Port George this summer and the two ends of the line would be connected up by September, 1914. If labor conditions and the weather were favorable the line might be finished before then, this would allow for contingencies. Steel was now westward as far as mile 80, and would be laid down in the region now onwards to mile 147 on the Grand crossing at the city. Mr. Frazer would probably be crossed on a temporary structure and the permanent structure would be put in place. Another 1,000 additional laborers, chiefly Italian, had been sent to the city. The work was progressing very satisfactorily.

BYVAN'S EFFORTS FOR PEACE.
Sydney Brooks Discusses Policies of U.S. Secretary of State.

London, May 16.—Sydney Brooks, writing in the Chronicle of Secretary Bryan's efforts for peace, says: "One may fairly certain that as long as Mr. Bryan retains his political office there will be little talk of the American protectorate of Cuba will be lightly expressed, that the United States will not permit itself to be drawn into a purely passive attitude on the subject of Cuba. The United States will gradually withdraw from political-commercial venture in the Far East, and that the spirit of Eastern armaments will not be allowed to influence American proposals for defence."

BRITISH AMBASSADOR TO MAKE REPRESENTATIONS

Will Take Up Question of Tariff Bill to Which Objection Has Been Raised.

By Bulletin Leased Wire.
London, May 16.—The foreign office has notified the Newsmen's club of commerce that the British ambassador at Washington has been instructed to make representations to the United States government on the subject of the section of the tariff bill which provides for the exclusion from entry of all merchandise shipped to the United States in the case of the manufacture or shipment shall refuse to submit to the inspection of a duly accredited investigating officer of the United States his records or accounts pertaining to the value or classification of such merchandise.

WOMEN WITH BALLOT WOULD NOT BE SAFE SAYS N.Y. WOMAN

This is Opinion of Dr. Emma Shaw in Addressing Westminster Suffrage Meeting

By Bulletin Leased Wire.
London, May 16.—Mrs. Charlotte Denard in a speech tonight defined the position of the women's movement in Canada as favoring law-breaking with violence. She said the women of the league were not prepared to meet meetings when forbidden by the police and in various ways manifested contempt for man-made laws, but they differed from the militant suffragettes by accepting the law as a means of obtaining their rights, and from the militant suffragettes by not committing personal assault. The league refused to use force, but it was not ready to meet meetings when forbidden by the police and in various ways manifested contempt for man-made laws, but they differed from the militant suffragettes by accepting the law as a means of obtaining their rights, and from the militant suffragettes by not committing personal assault.

Dr. Emma Shaw of New York, addressing a suffrage meeting in Westminster tonight, said the conduct of the women in the United States had been the people of the United States that women with the ballot would be safe and that consequently the American women have been voted down. The men of America, Dr. Shaw declared, were using the agitation of the English women as a club over the American women and trying to make them believe that women had shown themselves to be irresponsible and untrustworthy. But that was merely an excuse for cowardly men to cover their own cowardice and inconsistency, she added.

Women now had 57 electoral votes in the United States Senate, Dr. Shaw said, and Colonel Roosevelt had taken up the question because he knew these votes would decide the big question.

BIG FARM CHANGES HANDS.

Famous Holding in Goose Lake Country Has Been Bought by a New English Earl.

Saskatoon, May 16.—The famous Western farm, consisting of 18 sections or 19,200 acres of what is known as the finest agriculture land in the northwest, situated at Horseman, on the proceeding on the Toronto-Calgary line, has been sold at a price of \$43 per acre or a total of \$795,000 by the Western Land and Agricultural Company in Minneapolis.

The farm was owned by Henry Deutsch, president, who is at present in Minneapolis, the land is referred to in English literature in the name of H. Benson Bush, acting manager of the Earl of Bathurst, and it is rumored that the name of the Western farm will be changed to that of "The Bathurst Estate." The transfer includes all equipment, consisting of a large number of gas tractors, bulldozers, etc.

THOUGHT AT BREWERY.

The completion of the new building of the brewery on the north side of Saskatchewan avenue, which has been delayed owing to trouble with the concrete walls. It will be remembered that last year a workman was killed during the excavation for this building.

After the residents of the south side of Saskatchewan avenue vigorously objected to the erection of the building, an account of the building, the view, a compromise offer was made to let the brewery people build a warehouse near a railway, but they refused the offer.

It is reported that the trouble now occurring on the construction, reconstruction or repairing of a defective wall will add much to the difficulty, especially if a slide occurs.

METROPOLITAN PROGRESS.

The reports presented at the congregational meeting of the Metropolitan church, held on Wednesday evening, showed a year of progress. The membership of 1911 has grown to 548, and besides, in the territory of 1911 there are now 1,000 members of the Metropolitan church and another in Richmond Park.

The pastor, Rev. H. H. Leitch, in his chairman's address, said that the missionary spirit was driving in the Metropolitan congregation. Mrs. F. W. Foster presented the report of the Mission Band, and Miss Verma Bernard told of the work of the Mission Circle.

Mrs. H. H. Leitch told of the good work done by the W.M.S., which has been united effort has been made. C. T. Richards, superintendent of the Sunday school, spoke of the harmonious and healthy condition of the school. A large number of the pupils had signed the average of the decision cards.

Thousands of Men Wear "Ramsey Special" \$15 Suits—They are Well Dressed and Satisfied

When a large institution wants to do something in a real large way it usually succeeds. This big store for men determined a long time ago to specialize on \$15 Suits—to give better Suits to sell more at \$15 than many people thought possible. We went to Canada's best clothing manufacturer with our story. We told him that we were willing to take a smaller profit on each Suit for we expected to sell more and win out by that method. We told them that they would have to figure on the same basis—less profit on each Suit, but they said, "We are live people; they saw the point and 'were on.' They make the 'Ramsey Special' \$15 Suit. They put better materials and more careful work into them than the Suits that are ordinarily made to sell at \$15. They make the best Suits in the world. Little bit of look, but—well, look into our clothing department Saturday and you'll understand. Thousands of men in Edmonton are wearing our \$15 Suits. They are well dressed. We'd like you, too, to see these Suits. We know you will want one. If you get one you'll feel and know that you've got a good one. You'll feel that the values are incomparable at—

Another 100 Women's Silk Lined, Smart, Stylish Suits, Worth from \$18 to \$25 at \$10

We've sold a surprising number of Women's Suits in the last few weeks. Business hasn't been very bright this season with some of the Eastern manufacturers. They got stuck with large quantities of Suits and were placed in the position of being compelled to sell at any price. This is the third lot we secured at an absurdly low figure. This time it is a lot of 100 Suits, practically the same in quality, value and assortment as the 200 we sold the first part of the week. There are tweeds, whippers, serges, Bedford cords, chevrons in all colors and in dozens of styles—all smart, all good, all fashionable. The linings are of plain silks, mosses and brocaded silks. Have silk covered shields and are perfectly finished. Sizes are from 16 to 42. Values are up to \$25. Not a Suit in the lot that can be bought regularly up to \$18.

The Ball Hard--Fielding Good

Reddick Leads Batters With An Average of .316--Team is Slouting at 224 Mark--Whisman, Povey, Redmond and Dudley Have Not Struck Their Stride--Fielding of the Team is Good--Dudley Leads

Shortstop Lou Reddick is the only regular on the Edmonton baseball team who has hit over .300 mark in the six games played up to yesterday. It cannot be said that the birds are hitting the ball yet as their combined batting averages amount to only .224. A glimpse over the averages to date would lead one to believe that the Whismanites have not found their hitting eyes yet. And he must at they do, however, opposing pitchers will begin to suffer and there will be a general fattening of batting averages.

Reddick leads the bunch with a mark of .316. The pitchers, Clayton and Hinderford, have a better percentage, but their hands are not nearly so frequent. Reddick is also hitting the ball consistently, but in only four of the 260 marks with .277. Whisman, Redmond, Povey and Dudley have nothing to boast of, but, which is better, can be relied upon to be around the 200 circle. Such speed as Reddick has hit in fifteen trips to the plate, but plus one bright was a very timely one. He has hit to make a run, but Tom will begin to hit him out one of these days. Reddick has not hit at third base, is hitting fairly consistently, having averaged a hit in every four times at bat.

Following are the batting averages:

Player	At Bats	Runs	Hits	Errors	Average
Clayton	2	0	3	0	.300
Hinderford	1	1	1	0	.222
Reddick	6	19	6	0	.316
Povey	6	24	2	1	.222
Whisman	6	24	2	1	.222
Redmond	6	24	2	1	.222
Dudley	6	24	2	1	.222
Povey	6	24	2	1	.222
Redmond	6	24	2	1	.222
Dudley	6	24	2	1	.222
Whisman	6	24	2	1	.222
Reddick	6	19	6	0	.316
Clayton	2	0	3	0	.300
Hinderford	1	1	1	0	.222

Good work in the field. There can be no possible complaint about the work of the birds in the field. In the six games played up to ten errors have been made, and in the team keeps up the work of the field to nearly level the league. The team's fielding average is .959. Dudley's error has been particularly bright, and this brilliant fielder has looked like a second baseman. Reddick, who has played, accepting 57 chances without an error, Whisman, Povey, Stark, Clayton, Hinderford, Ford and Hinderford also have clean fielding averages.

Reddick leads the error-makers with four, but the Kansas mark work is short will not count as a fault to any. Reddick has two errors, while Redmond, Stark, Spencer and Hinderford have one each.

White, Redmond, Skyles, Spencer and
 Heaters have run each.

SOLOISTS OF QUALITY
ENTERED FOR FESTIVAL

As the time for the big musical festival draws nearer, a better indication may be had of just what this year's competition will be like. The regular entry list closed this week, although it is likely there will be many added entries, judging by those already in the list, the competition is fairly in the second stage of its preparation. The solo entries are of an exceptionally high quality this year, and some excellent results are expected. The choir competition also promises to give some fine singing.

According to Mr. Vernon Barford, the large festival choir is doing good work at present, and as the time draws near for the first public concert, arrivals should be quite up to the mark. The orchestra also is being put into shape nicely.

Mr. Hayden Morris has been appointed assistant secretary to the festival. His office is in the Toronto-McNamara block.

CANADIAN MUSICIAN
FOR ILLINOIS COLLEGE

Mr. J. F. Nasmith, who returned recently from Germany after an extended course of musical study, and spending the past month in Vancouver, is receiving the congratulations of his friends on his appointment as director of the vocal department of the College of Fine Arts of the State University of Illinois. This institution, which has an enrollment of more than 8,000 students, is one of the most richly endowed on the American continent, and has at its head of its administration the celebrated President James M. Smith. The position which Mr. Nasmith has just accepted has been much coveted one, permitting as it does of much more work than he is the youngest man over

selected to this responsible post. In consequence of the appointment, Mr. Nasmith has postponed their return to Berlin until the close of the college term next May, and will leave in the course of a few weeks for Eastern Canada, where they will spend the summer months.

HERE'S AN EXAMPLE
OF "FUTURIST" MUSIC

In the Musical Times is quoted a passage from a recent song, by Schubert, entitled "Herrnweiser" in G-flat, a perturbation peep into the confusion of the future, beginning at B flat and middle C, the core part, a sharp to G above the treble clef, and it has to make a dash at it, which is resolved by the end of the piece, which is resolved by the end of the piece, which is resolved by the end of the piece.

U.S. Receiver of Stolen Property. Washington, May 16.—Whether the United States as the innocent receiver of stolen property is responsible for the value thereof is a question that international arbitral, which is pending upon British-American claims, was asked to decide today. The Canadian government demand about \$100,000, the value of 40,000 feet of lumber, which was stolen in 1909 to construct the military barracks at "Single City," Alaska. Canada claims that the United States bought this lumber from a man named Howard Mountain, who cut it from Canadian domain without a permit and without payment. He is alleged to have left the country later.

SWITZERLAND IS EXCITED.
Over Fortifications Being Erected by Germany in Violation of Treaty of Paris.

London, May 16.—The Swiss press is excited over the latest works which Germany is building at Hattenberg. A special clause of the treaty of Paris, 1815, provided that the French fortifications then existing should be destroyed and that nothing of the kind should be re-erected thereafter. Germany, as one of the high contracting parties, is bound by the treaty in the Swiss claim. But there is doubt whether the German work in the neighborhood of Basel is not a fortification within the meaning of article 1. Swiss opinion divides as to whether this is a permanent character, which the Hattenberg seems to be.

The main point at issue is whether the German work is a fortification or not, but whether it is or is not, it is of no use. The German official attitude is that the work is intended simply to guard the passage of the river.

Sketch night will be held in the lecture hall of First Presbyterian church on Tuesday evening, May 20, at 8 o'clock. A small admission for it be charged.

Grains, May 16.—The boy scouts of Regina are under first aid campaign and it has been announced by the Town Planning Commission that the law is to be given the use of the current law to amend the city to use as market gardens, the products, for the use of the city, to be used by the local dealers, and later by the Regina boy scouts market gardens. The law is to be given the use of the current law to amend the city to use as market gardens, the products, for the use of the city, to be used by the local dealers, and later by the Regina boy scouts market gardens.

SWITZERLAND IS EXCITED.
Over Fortifications Being Erected by Germany in Violation of Treaty of Paris.

London, May 16.—The Swiss press is excited over the latest works which Germany is building at Hattenberg. A special clause of the treaty of Paris, 1815, provided that the French fortifications then existing should be destroyed and that nothing of the kind should be re-erected thereafter. Germany, as one of the high contracting parties, is bound by the treaty in the Swiss claim. But there is doubt whether the German work in the neighborhood of Basel is not a fortification within the meaning of article 1. Swiss opinion divides as to whether this is a permanent character, which the Hattenberg seems to be.

The main point at issue is whether the German work is a fortification or not, but whether it is or is not, it is of no use. The German official attitude is that the work is intended simply to guard the passage of the river.

Sketch night will be held in the lecture hall of First Presbyterian church on Tuesday evening, May 20, at 8 o'clock. A small admission for it be charged.

TO THE INVESTING PUBLIC:

In this advertisement you have a clear cut statement of the investment offered by the Nakamun Asphalt and Oil Company, Ltd., the assets controlled by the company, plans for developing them, and progress with the plans. Read it carefully. It will convince you that shares in this company at 25c each (one-fourth their fair value), are the best investment on the market today.

PLANS FOR 1913

- No. 1—Installing and operating a shaft for oil and gas on the Steamboat of the company at Nakamun.
- No. 2—A thorough test of the extent and depth of the asphalt deposits controlled by the company, the formation data which will warrant the construction by the U.S.A. of 11 miles of railway to the asphalt lens from the Nakamun main line at Crowsnest.
- No. 3—Development at the Nakamun Asphalt and Oil Company's Whitecourt coal fields to put the mines on a shipping basis with arrival of steel on the C.N.R. to the south of the grade of which is now built through the company's property.

In fact, these are the 1913 plans of the Nakamun Asphalt and Oil Company.

A standard drilling outfit for oil and gas has been purchased from the Al. H. Murray and Company of Victoria, B.C., which will cost, installed and ready for operation, \$15,000. This is now at Nakamun and being hauled to Nakamun.

Mr. H. Murray, of Victoria, B.C., who is now at Nakamun, a man of wide experience in east oil fields, has been secured under contract to conduct drilling operations on the property during the coming summer.

PROGRESS

A contract has been let for the supply of 500 cords of wood to be delivered on the Nakamun property for use by the drilling outfit, and the work of cutting and delivering is now going forward.

This much progress with the 1913 program has been made to date. Continued progress to a successful completion of the program operation on the part of the investing public of Edmonton, including the large body of present shareholders in the company as well as those who have not yet become holders of its stock.

RESOURCES

Once developed, the resources controlled by the Nakamun Asphalt and Oil Company will be worth millions. They are as follows: Petroleum, gas and asphalt rights over 2,100 acres of land in Twp. 16, Rge. 2, West 5th Meridian, and 800 acres of coal land in the Whitecourt on the C.N.R. Peace River branch; undeveloped with two six-foot seams of semi-bituminous coal, which can be mined cheaply and will have transportation facilities with the completion of the C.N.R. Peace River branch under construction.

No better indications of oil exist anywhere in the Canadian West than in the company's property at Nakamun. The discovery of gas in paying quantities is practically assured. The asphalt deposits await only the arrival of transportation facilities to make them exceedingly valuable, as their output will be in demand in every Western municipality.

And back of these three assets, oil, gas and asphalt, each of tremendous possibilities, is an asset in the Whitecourt coal deposits, which investigations have shown to be worth many times the entire amount invested by the company.

WHAT MORE CAN BE ASKED?

If a quest for oil and gas should prove fruitless; if a remote chance the Nakamun asphalt deposit should prove unprofitable, the shareholder's investment in the Nakamun Asphalt and Oil Company would still be guaranteed by the value of the coal lands.

The Nakamun Asphalt and Oil Company's combination of oil, gas, asphalt, and coal, means that an investment in this company has four chances to one for success as compared with an investment in any company formed to develop a single one of these resources. Here is a situation absolutely unique in the history of stock company speculation.

At the company's office on McLaughlin Avenue you can see several tons of Nakamun Asphalt, brought from the claims; you can see contracts for drilling machinery at other evidences of development progress; and also reports of the value of the coal lands and the property of the company with a view to ascertaining the extent and value of the deposits. Any other information you may require will be furnished gladly.

Until drilling machinery is in actual operation on the field at Nakamun, the price of the stock in the company will remain at 25c per share. For value \$1.00 (one dollar), fully paid up and forever non-assessable. When work commences the price will advance.

Call at once. Investment opportunities like this do not last.

Important Amendments to Criminal Code Proposed by Minister of Justice

SEVERE PUNISHMENT FOR WHITE SLAVE TRAFFICERS

Ottawa End of Southern Press
Grossly Misrepresents Sir
Wilfrid Laurier

Ottawa, May 16.—Hon. C. J. Laurier, minister of justice, introduced today morning a bill making important amendments to the criminal code. In a word, the amendments proposed were very stringent to secure and increase and other weapons, while the punishment for people engaged in the "white slave" traffic is made more severe and the law is to be more rigidly enforced.

The change in the code the use of firearms or other weapons is prohibited to anyone who is not a member of the police. In failure to do so, it is made impossible to buy weapons, and such person is liable to a fine of \$100.

It is also a change providing for the punishment of men deserting wife or children, when they are left in want of food, clothing or medicine to prevent starvation.

Important changes are also made in the law with regard to the "white slave" traffic. Mr. Laurier said the government had adopted the provisions of the English act of last year, which makes the punishment of people who traffic in this more severe.

Mr. Laurier stated that there was a provision making it a criminal offence to leave houses for prostitution and also an amendment prohibiting gambling in such places.

There is also a clause providing for punishment of men deserting wife or children, when they are left in want of food, clothing or medicine to prevent starvation.

When the house met this morning Sir Wilfrid Laurier rose on a question of privilege, to take occasion to make a statement which appeared in the Montreal Citizen to the effect that the minister of justice had been quoted as saying that the naval bill had been seconded by Mr. Laurier, the Nationalist member for Quebec. There was, he said, in this statement an intimation which he was certain was by design. The man who seconded the motion for a naval bill was Mr. Laurier, and not Mr. Laurier. The right to make the motion was, he said.

Asked Concerning Report.
Sir Wilfrid then directed the attention of his government to an article in the United Kingdom press in which it was stated that as the result of the admiralty's policy of "no more ships," it would be necessary to increase the number of ships in the Canadian fleet. He asked if the government had any official communication from the admiralty more than contained in the report of the first of the admiralty from which he quoted on Thursday night.

Supplementary Estimates.
Hon. W. T. White, in reply to a question by the opposition leader, said that the supplementary estimates would be brought down early next week. Sir Wilfrid then reminded that Hon. Robert Baggot, on a couple of occasions when leading the house, had expressed the opinion that a proposition would occur before the month end if this were so. He said that the supplementary estimates would be brought down at the end of the month.

a charge of conspiracy. It appears that the men were in the town at the request of the "Black Citizens' Association," and were being, it was said, to be on the march to the town. The men were being, it was said, to be on the march to the town. The men were being, it was said, to be on the march to the town.

The Superintendent of the Pinkerton agency in Winnipeg has been informed and will appear at the trial. The detectives have raised objection to being tried before one of the local magistrates and it is understood the superintendent of the agency will use his efforts to get the case tried before another magistrate or before a judge of the district court.

STRIKING MINERS RIDE

Wheaton, N.C., May 16.—Two hundred and fifty armed deputy sheriffs today guarded the Mount Hope mine of the Empire Iron and Steel company, and the wrecked road of the little railroad leading thence where a strike of miners and railroad employees has been in progress for several weeks. The strike brought cessation of the mining which prevented all night. The deputies are in a military position and five others are in the county jail. There will be no sending of troops to Wheaton unless the situation becomes more grave. In one of last night's conflicts a rider destroyed a strike of a few yards. The deputy will lose his study. The strikers demand shorter hours and more pay.

HIGHLANDS' LINE LOSING PROPOSITION

Street Railway Superintendent
Figures Loss at About \$700 Per Month

TOTAL REVENUE FOR MARCH WAS \$1,020.60

Cost Engineer Will be Asked to Check Over the Superintendent's Figures

That the Highlands extension has been losing money at the rate of about \$700 a month is the opinion of Superintendent Woodroffe, of the street railway department. At this rate, he says, the extension will have a tidy little bill of some \$12,000 to pay at the end of the eighth month, during which time the firm agreed to reimburse the city for any loss incurred.

he charged at the rate per car mile, and that the revenue should be the sufficient of the loss against the average passenger fare. The extension, he says, is the eighth of March, at which time the first passenger travelled on the line of the extension. The revenue of the extension was \$1,020.60. The total revenue of the extension was \$1,020.60.

The first fare collected on the extension March was 25,530; the second fare was 2,525.95. The total revenue, based on an average fare of one cent, 1,020.60. The revenue of the extension was \$1,020.60.

Cost Engineer has been asked to check over the Superintendent's figures. The extension has been losing money at the rate of about \$700 a month.
